

## **RoadBuddy**

Developed by **RoadBuddy Team**

Revision Date 3/11/25

Sprint Completion Data 2/11/25

### **Sprint 2 Plan**

**Goal:** Users can see and create carpool offers and requests

#### **Roles:**

- **Aurelia:** Front-End Developer
- **Fiona:** Front-End Developer
- **Ian:** Back-End Developer, Scrum Master
- **Jason:** Back-End Developer, Product Owner
- **Truong:** Full-Stack Developer

#### **User Stories/Tasks:**

- **#01: I, as a user, need to be able to make carpool offers and a request so that I can either get a ride or carpool buddy. [13 story points]**
  - Create API to allow user to post carpool offers[3 hours]
  - Create API to allow user to post carpool requests[3 hours]
  - Create carpool post offer creation page in react native[3 hours]
  - Create carpool post request creation page in react native[3 hours]
- **#02: I, as a user, need to be able to see carpool offers and requests so that I can either get a ride or carpool buddy. [8 Story points]**
  - Make it so other users can see the carpool offers[6 hours]
  - Make it so other users can see the carpool requests[6 hours]
  - Create carpool offers page in react native[3 hours]
  - Create carpool rides page in react native[3 hours]
- **#03: I, as a driver, need to specify the amount of people I can take in my car so that other people can plan accordingly. [3 story points]**
  - Setup firestore storage[2 hours]
  - Create features for the ride offers[2 hours]
  - Create features for the ride request[2 hours]

- #04 I, as a driver, need to be able to cancel my ride offer so that if any emergency happens, people know that I can no longer drive. [2 story points]
  - Delete Offer[2 hours]
  - Delete Request[2 hours]

**Scrum Board:**

User Story	To-Do	In-progress	Done
I, as a user, need to be able to make carpool offers and a request so that I can either get a ride or carpool buddy.			<p>Create API to allow user to post carpool offers [Truong]</p> <p>Create API to allow user to post carpool requests [Ian]</p> <p>Create carpool offers creation page in react native [Fiona and Aurelia]</p> <p>Create carpool rides creation page in react native [Fiona and Aurelia]</p>
I, as a user, need to be able to see carpool offers and requests so that I can either get a ride or carpool buddy			<p>Make it so other users can see the carpool offers [Ian]</p> <p>Make it so other users can see the carpool requests [Ian]</p> <p>Create carpool offers page in react native [Truong and Fiona]</p>

			Create carpool rides page in react native [Truong and Fiona]
I, as a driver, need to specify the amount of people I can take in my car so that other people can plan accordingly			Setup firestore storage [Truong]  Create features for the ride offers [Truong]  Create features for the ride request [Ian]
I, as a driver, need to be able to cancel my ride offer so that if any emergency happens, people know that I can no longer drive.			Delete Offer [Truong] Delete Request [Truong]
