Sprint 3 Report

<u>**Actions to Stop:**</u>
- Not merging to the main branch
- Not completing tasks for current sprint

<u>**Actions to Start:**</u>
- Merging to GitHub
- Completing tasks for current sprint
- Updating scrum board when task progress changes

<u>**Actions to Continue:**</u>
- Completing tasks for MVP
- Styling for pages without styling
- Frequent communication

<u>**Completed Work:**</u>
- **#01: I, as a driver, want to charge passengers for my service so I can make some money.** [13 story points]
  - List payment info under carpool listing or user profile [1 hour]
  - Use API (e.g. Venmo) to allow for secure payment transactions. [3 hours]
- **#03: As a passenger, I need to be able to accept a driver's carpool offer so that I can get to my destination. [**8 Story points**]**
  - Update members of a carpool [1 hour]

<u>**Uncompleted Work:**</u>
- **#03: I as a passenger, I should be able to sort the trips by price so I can pay less.**[3 story points]
  - Create filter button in react native [1 hour]

○ Make it so that carpool offers are sorted when filter changes [1 hour]
● **#04: I, as a driver, I need to be able to remove passengers from my group should I wish to do so. [2 story points]**
    ○ Delete Passengers [1 hour]
    ○ Update offer in react native [1 hour]

Infrastructure:
- Frontend
- Backend
- Database
- Github
- Continuous integration
